

Warrior Energy Services

Warrior Energy Services serves more than 600 E&P customers – both majors and independents – through 53 operating bases in 10 states with more than 600 dedicated employees.

Warrior Energy Services operates through two business segments – Black Warrior Wireline and Bobcat Well Intervention.

Black Warrior Wireline is the leading provider of cased-hole e-line logging, perforating, pipe recovery services and plug and abandonment services to the oil and gas industry.

Bobcat Well Intervention is a major provider of well intervention services including snubbing, coiled tubing, pumping and stimulation and fishing/rental tools.
