

Premier Oilfield Rentals

Premier Oilfield Rentals, a specialist in oilfield equipment rental for more than 35 years, provides top quality drill pipe, tubing, tubular handling equipment and downhole tools to clients around the world.

Premier's corporate headquarters is a custom-built facility in Aberdeen, at the heart of the European oil and gas industry, which services the North Sea and Norway. The facility in Great Yarmouth supports the southern North Sea while the base in the Netherlands acts as a gateway to Europe servicing clients from Denmark to Greece. In addition, facilities in Nigeria service West Africa, the UAE covers the Middle East and CIS regions and Singapore supports Asia Pacific providing dedicated resources to key international markets.

With extensive inventories of equipment available 24 hours a day, 365 days a year, Premier is committed to providing first-class equipment and service to ensure complete client satisfaction.
