

Workstrings

Workstrings is a tubular rental company that specializes in the rental of primary drill pipe strings, tubing, landing strings, eXtreme™ Completion Tubulars and associated accessories. Workstrings maintains more than 3,000,000 feet of drill pipe, tubing and associated accessories in inventory, which includes the industry's largest inventory of landing string.

Workstrings' high quality rental tubular products include:

- FASTR™ 2MM pound landing string system
- Drill pipe including Turbo Torque™
- Heavy weight drill pipe
- Drill collars
- Landing strings
- XTM, CTM, and GTM completion tubulars
- Drill string accessories

Workstrings continues to expand its global presence with operations covering the Gulf of

Mexico, the North Atlantic and South America. Rental tubulars can be provided to Europe, Africa, Middle East and the former Soviet Union regions through our sister company, Premier Oilfield Rentals, headquartered in Aberdeen, Scotland.

As the industry leader, Workstrings continues to analyze the global market and implement its operational strategy for continual growth and diversity. With the combination of premium rental assets, value-added Engineering and Operational Support Services, Workstrings remains ready to serve and support our customers' tubular rental needs.
